

U.S.SAWS™

U.S.SAWS BP1520 Utility Pump

U.S.SAWS Battery Powered BP1520 Utility Pump is a high-volume pump designed to remove standing water from meter pits, valve boxes, and other underground structures where standing water is a problem. The battery adapter can be configured for a 20 Volt DeWalt or 18V Milwaukee battery. The PVC body and housing will never rust, dent, bend or corrode. The slim design of the pump head will fit into tight areas where water removal is most challenging.

Common Uses: Meter Pits, Valve Boxes, Telecom Vaults, Boat Bilges/Livewells, Irrigation, Aquatic Ponds/Aquariums

Battery Adaptor Plate

Built in Screen to Block Debris

Durable PVC/Plastic Construction

Flexible Discharge Hose

Features:

- Pump 15 gallons a minute
- Powered by a 20V DeWalt or 18V Milwaukee Battery
- Ergonomic handle
- 6' discharge hose
- Durable PVC construction

Model	BP1520 - Utility Pump
Power Source	20 Volt DeWalt Battery or 18 Volt Milwaukee Battery
GPM	15
Length	4'
Weight	6 lbs
Part Number (DeWalt)	US27840
Part Number (Milwaukee)	US27844
